1 Text Book

If you feel the need for extra reading and insights, two recommended books are

- Ralph Grimaldi – *Discrete Mathematics and Combinatorial Mathematics*,

- Susanna Epp – *Discrete Mathematics with Applications*,

There is a student manual associated with the second book
There is a copy in the library, call number 511/E64d/2004/Solutions.
These reference books are optional since this unit is entirely covered by the Lectures Notes and the Tutorial and Practice Classes booklets.
